It costs on average just US 25 cents a day to feed a hungry child and change her life forever.

While food is the most basic of human needs required for survival, on average, 1 in 8 people go to bed hungry each night.

We can achieve Zero Hunger in our lifetimes. Halving hunger by 2015, as pledged in the Millennium Development Goals, is the first step.

ZERO HUNGER CHALLENGE

Proportion of total population undernourished, 2011-13

|					
<5%	5-14,9%	15-24,9%	25-34,9%	35% and over	
Very low undernourishment	Moderately low undernourishment	Moderately high undernourishment	High undernourishment	Very high undernourishment	Missing or insufficient data

This map shows the proportion of undernourishment in the total population of developing countries as of 2011-13. The indicator is an estimate of the percentage of the population at risk of caloric inadequacy. Further information is available at www.fao.org/publications/sofi/en/
